

# 2021 AQIQAHAH REPORT

MYANMAR

## PROJECT OVERVIEW

### WHAT IS AQIQAH?

On occasion of a child's birth, Aqiqah, or the sacrifice of an animal, is carried out on the seventh day after the child's birth. The Aqiqah is an Islamic tradition (Sunnah), but not an obligation on parents. However, it is encouraged! The meat is then shared with family, friends, and families in need. Many of our donors decide to give their entire Aqiqah to charity!

### WHY

This project aims to provide immediate, short-term food assistance to vulnerable families. Meat is a luxury in many countries and therefore not the easiest to come by. Protein found in meat is vital to supplying energy and improving the health of our beneficiaries.

### WHEN

Dec 20, 2021-Jan 30, 2022

### WHERE WE DID IT

**MYANMAR:** The program was delivered to vulnerable Muslim communities in Ywar Lay, Sule Gone, Lan Gwa, Hin Ngu, Myanmar.

### WHAT WE ACHIEVED

**5,594 beneficiaries** received 2kg food parcels across **4 villages** in Musali Division;

**167 goats** were slaughtered, benefitting **5,594** directly and **27,970** indirectly.

### WHO BENEFITTED?

#### Households were selected on a needs-basis:

- Elderly led households
- Women led households
- Single mother led households
- Disabled person led households
