2022
ANNUAL REPORT

FROM OUR CEO

Asalamu Alaykum wa Rahmatullahi wa Barakatu,

This past year, you've witnessed a lot.

You've seen floods of a historic scale devastate Pakistan, killing thousands and leaving millions without food and shelter. You've heard calls from South African orphans during the country's newest Covid outbreak, praying for your support. You've spent Ramadan nights in supplication for those within our own country without food in their bellies or a place to call home. You've shared your compassion for countless others experiencing environmental, financial, social, and political instability.

And yet, this past year you've also witnessed intense blessings. You responded to the force of Pakistan's floods by providing food and medicine to those in need, and later helping them construct flood-resilient homes. When South Africa called out to you for help, you pledged your support for hundreds of newly orphaned families, today supporting over 600 in the country. You've provided dozens of women of all faith backgrounds with a safe place to build their lives anew through the continued presence of the first Muslim-run domestic violence shelter in the Carolinas.

At Penny Appeal USA, we've been honored to partner with each of you this year to change the world. As we look to the year ahead, our team at Penny Appeal USA will be focusing heavily on two themes: resiliency and sustainability. We're doubling down on our commitment to truly empower those whom we serve to rise above the cycle of poverty, allowing us in turn to move on to serve others in need. When you support our OrphanKind programming, you're providing for the complete health of a child in need through nutritious meals, school clothes, and shoes, and also giving them an advantage through vocational training when they mature. When you donate to Thirst Relief, you help build community centers that liberate young girls from needing to spend hours a day fetching water for their families. And when you give to Feed Our World, it translates into an ongoing charity, as today's vibrant crops produce the seeds of tomorrow's harvest.

We don't know what the next challenge will be. But we're confident our team at Penny Appeal USA - and the men, women, and children whose lives you change every day - can continue to rely upon your support to meet these challenges, head-on.

Sincerely,

John Robbins, Ph.D

CEO, Penny Appeal USA
