Our Relief Efforts in Gaza

1. How are you delivering aid to Gaza when there's a blockade?

We've built partnerships with trusted local entities who have found innovative ways to deliver stockpiled supplies. However, given the evolving situation, these supplies will eventually run out and we're formalizing more agreements to deliver more aid as soon as it's allowed.

2. Who does Penny Appeal USA collaborate with locally?

Penny Appeal USA collaborates with reputable local organizations that hold UN registration, enabling them to secure essential supplies and services. These partner organizations undergo a thorough screening process to ensure compliance with both U.S. government requirements and Penny Appeal USA's programmatic and reporting standards. They also perform real-time needs assessments to identify individuals or communities in dire need of assistance.

3. Why does Penny Appeal USA continue to raise funds even in situations where aid delivery on the ground is challenging?

In certain exceptional circumstances, such as in Gaza where a complete aid blockade is enforced, our fundraising efforts persist. The reason behind this approach is that once the blockade is lifted, we can swiftly procure the necessary aid and supplies as per the needs assessment conducted by our trusted partners.

4. What is the plan for delivering aid to Gaza if the blockade remains in effect?

Our Gaza-based partner NGOs, registered with the UN and other relevant agencies, have access to central warehouses that stockpile relief items. These warehouses serve as hubs for the distribution of essential supplies throughout Gaza.

2461 Eisenhower Avenue,

Alexandria, VA 22314

When the blockade of humanitarian aid is eventually lifted, we will collaborate with our partners to replenish these warehouses and continue the distribution of much-needed relief items. Additionally, whenever it is safe, we request photographic and video of aid distribution to ensure transparency and accountability.

5. What will be included in the aid packages?

- Our food packs contain nutritional items like rice, flour, oil, and milk powder, and can support families at this critical time.
- Our family essentials kit includes hygiene items, providing families with comfort and protection against diseases. Your donations can also go towards providing shelter, mattresses and blankets.
- Our complete emergency pack includes the food pack, family essentials kit and shelter to the survivors in this time of extreme crisis.

6. How can we donate towards relief efforts in Palestine?

You can donate directly to our Palestine Emergency Response efforts [here](#). If you're unable to donate at this time, please feel free to share our [LaunchGood campaign](#) with family and friends to help spread awareness.

7. How can we trust the fund will go towards relief efforts in Palestine?

Our hope is to share videos and pictures as we receive them. Due to the circumstances of the situation, there is a delay in providing timely updates. Rest assured, your contributions will directly fund our relief efforts in Palestine.
